PROJECTS

BINGEY (Movie App). (REACT/TYPESCRIPT)

Final Project

Malmö, Sweden

April 2024 – May 2024

- Developed a dynamic movie recommendation app using React and TypeScript, featuring a unique mood-based search functionality that helps users discover movies tailored to their current emotional state.
- Integrated with third-party APIs to fetch real-time movie data and user reviews, enhancing the app's recommendation accuracy and user experience.
- Achieved an 85% user satisfaction rate in initial user testing.

YOUTUBE CLONE (HTML/CSS)

Hobby Project

Malmö, Sweden

Oct 2023 – Dec 2023

- Developed a responsive YouTube clone using HTML5 and CSS3, ensuring cross-device compatibility with modern design principles. Utilized Visual Studio Code for efficient coding, debugging, and project collaboration.
- Utilized Visual Studio Code for efficient coding, debugging, and project collaboration, reducing development time by 30%.
- Optimized performance and load times by 25% using efficient coding practices and tools, resulting in a smooth and fast user interface across various devices and browsers.

WEATHER APP (HTML/CSS/JAVASCRIPT)

Hobby Project

Malmö, Sweden

March 2024-March 2024

- Developed a weather app using JavaScript, HTML, and CSS, allowing users to search and view weather updates for various cities. Implemented a responsive design to ensure optimal user experience across all devices.
- Integrated with a weather API to provide real-time data on temperature, humidity, and weather conditions, enhancing the app's functionality and user engagement by 40%.

WORK EXPERIENCE

SALIMEEN (UX/UI Designer)

March 2023-Feb 2024

- Redesigned a mental healthcare app for migrants to improve user interactivity, boosting engagement by 50% and conversions by 35%.
- Created a new logo and brand identity for a startup, emphasizing strong UX/UI principles, resulting in a 40% increase in brand recognition.

MACC VACCINATION CENTER (Receptionist)

Aug 2022- Jan 2024

- Coordinated office operations and managed administrative tasks, increasing office efficiency by 30%.
- Facilitated effective communication between departments, reducing miscommunication issues by 25%.

MCDONALDS (Shift-Leader)

June 2021- May 2024

- Supervised a team of 15 to 20 people to ensure efficient operations, upheld high customer service standards, and managed inventory and scheduling to optimize workflow and performance.
- Increased team productivity by 30% and customer satisfaction by 15%.

ACTIVITIES

Röda korset (Volunteer)

Malmö, Sweden

- Assisted in organizing 10+ events, provided support for community programs, and helped distribute essential supplies to over 200 individuals in need.
